EDUCATION

University of San Agustin — Bachelor of Science in Computer Science **Expected June 2027**

Iloilo City, Philippines | Academic focus: software development, algorithms, and data structures

St. Anthony's College — Senior High School, STEM **2021–2023**

Dao Catholic High School, Inc. — Junior High School and Elementary **2011–2020**

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, GDScript

Frontend: React, Three.js, Tailwind CSS, Tkinter, HTML5, CSS3, Vite

Backend and Databases: Node.js, Firebase, Firestore, MySQL, SQLite

Tools: Git, GitHub, VS Code, Postman, Figma, Draw.io, Godot Engine

LEADERSHIP

Augustinian Developer Society — Quality Assurance Lead **Aug 2025–Present**

- Served as Technical Judge for the DevDash Hackathon and audited competing teams' GitHub repositories for compliance.
- Established development standards and reviewed code for performance and user-experience quality.

Augustinian Developer Society — Junior Developer **Oct 2024–Aug 2025**

- Supported organization events as part of the technical team, providing setup and on-site technical assistance.
- Participated in hackathons to develop technology-based solutions to real-world problems.

PROJECTS

Quarto — Boarding House Management System | Full-Stack Developer | Live Project

- Built administrator and tenant portals for rooms, payments, tickets, announcements, approvals, and reports using JavaScript and Firebase.
- Implemented Cloud Functions, transactions, caching, indexed queries, role-based security rules, validation, audit logs, and soft-delete recovery.

DinoWeb — Personal Web Portfolio | Full-Stack Developer | Portfolio

- Built and deployed a responsive React and Three.js portfolio featuring real-time 3D rendering, animation, and performance-aware loading.

Earth Arcade | Full-Stack Developer | GitHub

- Developed UI/UX, scene transitions, 2D environments, and gameplay mechanics for a Godot game promoting climate action under UN SDG 13.

TIP Airlines | Full-Stack Developer

- Created a Python, Tkinter, and SQLite airline system with passenger booking, flight scheduling, and persistent data storage.

CERTIFICATIONS

- Introduction to Data Science — Cisco Networking Academy, Oct 2025
- Microsoft Excel guided projects — Coursera Project Network, Jun 2025
- Code a Joke-Telling Talkbot — Google for Education, Jun 2025 | A.I.GNITE — NVIDIA AI Academy Philippines, Mar 2025
- Basic Web Development Workshop — Zuitt, Nov 2023 | Google DevFest — GDG Bacolod, Oct 2023

ACTIVITIES

National AI Hackathon — Finalist **Aug 2025**

DEVCON Iloilo — Volunteer Publicity-Material Designer **Oct 2024**
