EDUCATION

University of San Agustin

Bachelor of Science in Computer Science

Iloilo City, Philippines

Expected June 2027

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, GDScript

Frontend: React, Three.js, TailwindCSS, Tkinter, HTML5/CSS3, Vite

Backend & Database: Node.js, Firebase (Firestore), MySQL, SQLite

Tools: Git, GitHub, VS Code, Postman, Figma, Draw.io, Godot Engine

LEADERSHIP

Augustinian Developer Society – University of San Agustin

Quality Assurance Lead

Iloilo City, Philippines

Aug 2025 – Present

- Served as Technical Judge for DevDash Hackathon; audited competing teams' GitHub repositories for compliance.
- Established development standards and conducted peer code reviews focused on performance and UX quality.

Google Developers Student Group – University of San Agustin

Junior Developer

Iloilo City, Philippines

Oct 2024 – Aug 2025

- Built software prototypes aligned with UN Sustainable Development Goals for community-centered use cases.
- Automated university certification workflows using Autocrat, reducing manual administrative overhead.

PROJECTS

DinoWeb - Personal Web Portfolio | <https://cocoasaur.github.io/DinoWeb/>

Full-Stack Developer

- Built an interactive personal portfolio using React and Three.js, featuring real-time 3D rendering and animations.
- Deployed and maintained on GitHub Pages.

Quarto – Boarding House Management System | quarto-4d613.web.app

Full-Stack Developer

- Built and designed admin and tenant portals for approvals, rooms, payments, tickets, announcements, and reporting.
- Implemented Firestore transactions and Cloud Functions for monthly billing, payment posting, voids, and reminders.
- Reduced reads with offline persistence, TTL caching, pagination, indexed queries, and limited real-time listeners.
- Strengthened security with Firebase Auth, role-based rules, validation, audit logs, and soft-delete recovery.

Earth Arcade | <https://github.com/FlimsyOwl12/GAME-ON-Hackathon-Earth-Arcade.git>

Full-Stack Developer

- Contributed to UI/UX design, scene transitions, and 2D environment components.
- Implemented core gameplay mechanics and logic promoting climate action (UN SDG 13).
- Managed project structure and version control on GitHub

TIP Airlines

Front-End Developer

- Designed a custom UI/UX prototype to ensure operational logic and usability.
- Developed booking and flight scheduling logic modeled after real-world airline systems.
- Integrated database fundamentals for persistent data storage and data integrity.

ACTIVITIES

National AI Hackathon

Finalist

Iloilo City, Philippines

Aug 2025

DEVCON Iloilo

Volunteer Pubmat Designer

Iloilo City, Philippines

Oct 2024
